

CST 202

STRETCH WRAPPER

CYKLOP[®]
GLOBAL PACKAGING SOLUTIONS

STRAPPING
WRAPPING
CODING
TAPING

This machine has been specially developed for companies with minimal wrapping requirements and who are looking for savings on film. The machine is easy to operate, thanks to the clear and simple button functions. Changing the film roll is easy and can be done quickly. There are recesses in the base plate, so that the wrapper can easily be moved with a forklift. The CST 202 uses a fixed pre-stretching system.

Most important features:

- Adjustable turntable speed
- Adjustable foil car speed
- Adjustable number of lower and upper windings
- Pallet height scan
- Fixed pre-stretch system
- Mechanical brake
- Rainproof program
- Manual adjustment: turntable speed, film trolley
- Possibility of storing 4 wrapping programs

Opties:

- Bigger turntable
- Scale
- Loading ramp
- Roping (load to be secured on the pallet)
