TAPING

The CTT 210 is a film wrapping machine that is easy and quick to operate: the operator places the pallet on the turntable, sets the wrapping program and cuts the film when the pallet is wrapped. The CTT 210 guarantees good load securement and minimum material costs. With this wrapping machine it is possible to adjust the tension yourself. Finally, the CTT 210 is extremely suitable for wrapping irregular pallet loads.

### Advantages

- Easy and quick to operate
- Extremely suitable for wrapping irregular pallet loads
- Minimum material costs due to low film consumption

### Options

- Bigger turntable
- Heightened mast
- Ramp
- Roping
- Scale
- Cutting unit
